

Humanitarian organisations, information and ways to donate to help Ukraine

We have compiled a list based on numerous sources, not all of which we've been able to verify carefully so far because of the speed of events, so please choose what you find most appropriate. Most areas will also have local collection points for direct aid. Please check online or at your library for resources in your area. In Greater Manchester, [this list](#) compiled by Manchester Evening News shows drop-off points for donated items and a list of things they need.
